JUDGE AYERS' FAMILY REUNION

All of the Children Around Family Fireside.

All of the children of Judge T. W. Ayers are at home this week enjoying the great pleasure of a family reunion at the beautiful home on Chase street.

This is the first visit of Geo. Ayers, who resides at Lewistown, Montana, for 24 years.

This reunion calls together one of the oldest pioneer families in Morrow county. Judge Ayers came to what is now Morrow county in 1862 and has resided here ever since.

The following children were present:

Geo. Ayers, of Lewistown, Montana; Albert Ayers, wife and child and Mrs. Lizzie Kirk, of Payette, Idaho; Thos. Ayers and Mr. and Mrs. Geo. Fell of Pendleton, Oregon; Mrs. Elsie Lossiter, of Spokane, Wash. and Edgar Ayers.

ENDURANCE CONTEST.

Davenport and Castleman Plan to Race Thoroughbreds.

Homer Davenport has purchased a brand new Arabian steed, "Masoud" and today he signed with Gen. John B. Castleman, of Louisville, for an endurance contest with the latter's "Carolina" from the Pacific to the Atlantic.

"Carolina" is a fine specimen of the Kentucky saddle, noted for her stamina and a majority of cavalry officers are said to believe that she will easily win. Gen. J. Franklin Bell, chief of staff, is particularly interested in the contest, and at his suggestion it is to be open to all comers.

This trans-continental go-as-you-please race is to be held next spring. The start will be made from Portland, Oregon, probably in March, and the Oregon trail blazed and cleared by Lewis and Clark, is to be followed as closely as possible to St. Louis. At the latter city the riders will strike the old National road and will come over it into Washington.

A similar contest was arranged about a year ago, but the Arabian which Davenport had entered became ill and was withdrawn.

LaFollette to Aid Lumber Men.

Seattle, Nov. 22.—United States Senator Robert M. LaFollette, of Wisconsin, has offered to appear before the Interstate Commerce Commission at Washington next month and speak in behalf of the Northwestern lumberman in their fight against the Hill and Harri-man roads, protesting against the 10-cent advance in freight rates on lumber and shingles.

He also offers to champion on the floor of the United States Senate an amendment to the interstate commerce act providing that all freight tariffs must be passed upon by the commission before being put into effect.

A Eugene man, according to the Register, had killed a deer, also a bear that he had trapped, and was trudging along about dusk carrying a deer's head and some other plunder on a heavy stick over his shoulder, when a monster cougar jumped squarely on top of his back from a bank. He fought vigorously with his club, and got away unhurt, but the cougar got some supper.

MEMORIAL SERVICES OF THE ELKS

Will be Observed in Heppner Next Sunday.

The regular annual memorial services of the Elks lodge will be observed by Heppner Lodge No. 358, in this city next Sunday.

The exercises will commence at 2 o'clock p. m.

WILL REAPPOINT BRISTOL.

President Wants Him to Finish Land Trials.

Washington, Nov. 21.—District Attorney Bristol will be renominated when Congress convenes, in order that he may prosecute the remaining Oregon land fraud cases, but he will not be confirmed.

Senator Fulton called at the White House today and the President asked what disposition he wished made of the Bristol case. While the land cases are pending, Mr. Fulton said, he did not care to recommend a man for the office, and informed the President that it would be acceptable to him if Mr. Bristol's name was again sent to the Senate.

Unless renominated, Mr. Bristol could not prosecute the land cases, for his present appointment will terminate when Congress convenes. It is probable that steps will soon be taken to force the land cases to trial.

BUSY WEEK IN LAND BUSINESS

Twenty-six Timber Proofs and Homesteads Taken.

United States Commissioner J. P. Williams' office was the busiest place in town this week for a couple of days in performing the necessary work of transferring title of lands from your Uncle Samuel to individuals.

Twenty-six applicants for timber lands approved along with eight applicants for homesteads.

Notwithstanding the fact that the holidays are on, a good portion of the applicants were able to pay in full for their claims which in the aggregate means a large sum of money.

Japs Flood Canada.

Evidence that 3000 Japanese entered Vancouver alone during the first 10 months of this year was brought out before the immigration commission and evidence was developed that the Nippo company of Canada offered to supply the Grand Trunk with oriental labor, but the offer was refused.

At the head of the Nippo company is Major C. G. Johnson, formerly of the Duke of Cornwall's own rifles. The plan of the company was to secure men in Japan and after charging a fee for securing work for them to also secure \$1 a month from the wages of each.

In addition the company agreed to supply the men with food.

The inbound stage has been late at the terminus, Joseph, but twice in five years, and the outbound stage has missed the train at Elgin but once in five years, and that time was due to a breakdown. This is a record that beats any railroad, says the News-Record, and is in bright contrast to the weak and tired train that tries to make a daily trip from La Grande to Elgin.

INSPECTION OF MACHINERY

Factory Inspector Visits Morrow County.

E. D. Trumbull, deputy labor commissioner and factory inspector, who has been in Morrow county for the past two weeks inspecting all places where machinery is used in accordance with the provisions of the factory inspection law, finished his labors this week.

Mr. Trumbull reports that he found everything in good shape in Morrow county.

Since August 15, of this year Mr. Trumbull has inspected 200 plants in Eastern Oregon.

Weyerhaeuser the Lumber King.

Today Fredrick Weyerhaeuser celebrated his 73rd birthday. The enormously wealthy lumber king of the northwest, was born in Niedor Saulheim, Germany, November 21, 1834. He emigrated to the United States in 1852 and four years later located in Coal Valley, Ill., where he engaged in the lumber and grain business. In 1860 he began saw-mill operations at Rock Island. In 1891 he removed to St. Paul to better direct his great lumber interests and since that time he has continued to make the Minnesota capital his home. Mr. Weyerhaeuser is heavily interested in other industrial enterprises as well as engaged in various phases of the lumber and logging business. It has been reported that his wealth is equal to it if it does not exceed that of John D. Rockefeller. Mr. Weyerhaeuser owns vast timber tracts in Minnesota, Wisconsin, Washington and Idaho, and through ownership or control is the greatest single factor today in the American timber field.

Cuba to go Alone.

Havana, Nov. 24.—With the completion of the enumeration of the population of Cuba, there has been accomplished the first step in the direction of the termination of the American intervention and the re-establishment of the Cuban Republic.

Pending the difficult task of tabulating, the results probably will not be known for some weeks. Taking precedence of all other features of the census is the preparation of the registration lists by municipalities and words. These naturally will be subject to much revision, involving much delay.

An estimate by one of the most accomplished statisticians in the service of the provincial government places the population at 2,000,000, of which 400,000 are foreigners not entitled to the franchise.

An element that may prove to be of prime importance in the coming election is the health of Joe Miguel Gomez. It is rumored that the general is afflicted with a dangerous ailment which may compel his retirement from the field, in which event a reconciliation of the Miguelista and Zayasista factions is not improbable.

A singular feature of the present situation is the utter antipathy with which the Cubans appear to regard the preparations making for the restoration of their republic. At no time since the intervention began has political discussion been so languid.

The cannery at Freewater is running day and night, and over 100 people are now employed. Apples are being received from the Palouse country, from Grand Ronde valley, from about Colfax and various other places besides the large amount that are being canned from this immediate vicinity.

CITY ELECTION NEXT MONDAY

Very Little Interest Shown in Coming Event.

The regular biennial city election of Heppner will occur next Monday.

The vacancies for which new officers are to be elected are:

Mayor, three councilmen, recorder and treasurer.

Little interest is being shown and it seems that the ticket will not be crowded with names.

INSPECTOR'S REPORT.

Dr. W. H. Lytle, State Sheep Inspector Reviews Work.

Dr. W. H. Lytle, of Pendleton, state sheep inspector, has completed his annual report to the state board of sheep commissioners. The document contains a review of the work done relative to the eradication of scab and other diseases affecting sheep.

In opening his report Dr. Lytle justifies the state's action in taking up the fight against the scab in a paragraph as follows:

"In the past unorganized efforts on the part of the various counties throughout the state had proven wholly inadequate to eradicate or control scabbies and other sheep diseases, and in most instances the efforts on the part of the several counties had proven insufficient to hold the disease in check. The federal authorities had no jurisdiction over sheep other than those intended for interstate shipment, and in an effort to protect the owners of sheep in adjoining states, were forced to demand a precautionary dipping at the time of shipping for all sheep intended for interstate shipment.

"This measure, while absolutely necessary, worked a hardship on the shipper, as well as on the flock owners especially in cases where owners maintained their flocks free from disease. Also these measures were in no way aiding in the eradication or control of the disease within the state, hence it is absolutely necessary that some measure be taken whereby diseases of sheep could be eradicated from the state of Oregon."

According to statistics contained in the report the sheep inspector and its deputies found a total of 2,059,237 sheep in the state. Of these 257,770 were found infected with scab at the time of the annual dipping last spring. The total number of bands found affected was 192 and the approximate cost of dipping, paid by the sheepmen, was \$75,129.09. It cost \$4912.50 to pay the deputy inspectors.

The largest sheep county in the state, as shown by the report, is Malheur, which has 415,788, while Lake comes second with 255,085, and Umatilla third, with 240,956. Morrow county is fourth with 205,596 head.

Astoria Budget: Five hundred tons of dog salmon, part of the season's catch in northern British Columbia waters, are at present being salted and packed for shipment to Japan by C. S. Shinoda, a Japanese fish packer, who employs over 100 Japanese at Sapperton. The consignment will be worth \$50,000 by the time it reaches Japan, as salted dog salmon is esteemed a great delicacy by the Japanese, and finds a ready sale at 25 cents per fish.

There are 30 cases of measles at the mute school and six cases of mumps at the reform school.
